Skanska sells ongoing office project in Malmö

Skanska is selling an ongoing office project at Universitetsholmen in Malmö, Sweden. The buyer is Vital Forsikring ASA, Norway's largest life insurance company.

In accordance with Skanska's information policy the purchase price or capital gain is not disclosed for commercial development projects under construction. The development gain will be reported in the quarterly reports as project completion progresses.

The transaction involves the new Court of Appeals building in the Flundran 2 block at Universitetsholmen. The 10,000-square-meter building is currently under construction. The project was started at year-end 2006 and will be completed in the third quarter of 2008. Skanska's investment amounts to approximately SEK 255 M. The Swedish National Courts Administration has signed a 20-year lease for the entire property.

"We have managed to lease the project before initiating construction and sell it during ongoing production. This confirms that we have succeeded in our effort to develop premises that are attractive to both users and investors," says Richard Hultin, President of Skanska Öresund. "Demand for offices is strong and we foresee favorable possibilities to continue project development at Universitetsholmen."

In addition to the Appeals Court of Skåne and Blekinge counties, the Rent-Control Administration and Swedish Government Offices will operate in the building.

The new Court of Appeals building near the Malmöhus Castle was designed by Kim Holst Jensen at the Danish Architect firm SHL. Skanska Sweden is carrying out the construction.

Skanska Commercial Development Nordic Region is one of 14 business units within Skanska. Its task is to initiate and develop property projects involving offices, logistics and shopping centers. Office operations focus on the three large metropolitan regions in Sweden, the Copenhagen region of Denmark and Helsinki, Finland. The development of logistics facilities and volume retail properties is conducted in strategic locations in Sweden, Denmark and Finland.

Skanska Commercial Development Nordic is divided into three regional companies: Gothenburg, Stockholm and Öresund.

Skanska signs syndicated credit facility of EUR 750 million

Skanska has signed a syndicated credit facility totaling EUR 750 million, corresponding to approximately SEK 7 billion. The agreement has a maturity of seven years. The credit facility was signed by Skanska Financial Services AB, with Skanska AB as the guarantor. The facility, which will be used primarily as a strategic borrowing reserve, can be utilized in a number of currencies, including EUR, USD and GBP.

The creditors are 15 international commercial banks.

Press Release

June 26, 2007

Skanska awarded design-build road contract in UK for GBP 40 M, SEK 545 M

Skanska has been awarded a contract to design and construct the A354 Weymouth Relief Road in the United Kingdom. The contract amount is GBP 40 M, approximately SEK 545 M, which is included in order bookings for the second quarter of 2007. The customer is Dorset County Council.

The project will be undertaken in two phases under a so-called Early Contractor Involvement (ECI) agreement. This means that in the first phase the Skanska team will work with Dorset County Council to develop the scheme and, in phase two, Skanska will be responsible for the construction due to begin in early 2008. Completion is scheduled for 2011.

The 10-kilometer-long road project will include nine road bridges, improvement of existing roads and construction of a parking facility for 1,000 cars and new pedestrian, cyclist and equestrian paths, as well as landscaping and planting along the stretch.

The scheme will ease congestion and provide an important transport link for the sailing events in 2012.

Skanska UK reported revenues of SEK 12.3 billion in 2006, with about 5,000 employees. The company is active in building and civil construction, utilities and building services. Skanska is also a leader in the British program for private public partnerships, PFI (Private Finance Initiative).

Skanska to develop and build offices in Sundbyberg – invests a total of about SEK 300 M

Skanska is developing new office premises in Sundbyberg in northern Stockholm. The office property, which comprises 10,000 square meters of rentable floor space, is scheduled for completion in spring 2009.

Skanska's investment amounts to about SEK 300 M.

The office building will be constructed at Sturegatan 1 in central Sundbyberg, directly adjacent to convenient commercial services and very good public transportation.

"With Sundbyberg's train station, nearby bus terminal and subway, Sturegatan is a highly attractive location for employees and visitors. The demand for new and modern office premises is rising in the Stockholm area and we are looking forward to adding this profile property," says Håkan Danielsson, President of Skanska Fastigheter Stockholm.

The building will be seven stories high and in addition to office premises about 120 parking spaces will be available in an underground garage. The construction project is being carried out by Skanska Sweden and is scheduled to begin in June 2007. Pre-leasing of premises will be carried out successively during completion of the project.
